

TOGA SAS

Tribute To The Heroes

Our QR codes on each bottle tell you the tales of the first fighter pilots, bringing their story to life.

Each beer has been given a name according to the sensation it gives you in flight.

Escadrille

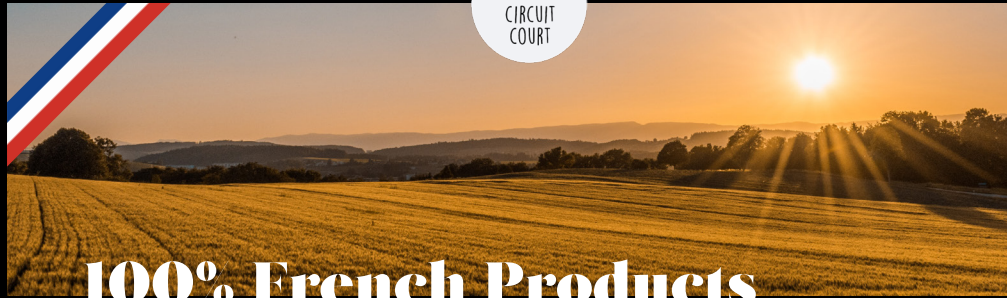

QUALITY CHART

Escadrille: The World's First Aeronautical Beer

Food subjected to altitude and pressure difference, gives the sensation of losing its flavour. For this reason, we have created the Escadrille beers! Thanks to an organic process, which allows them to keep all their flavours. Your experience on the ground and in the air will be exceptional.

Driven by this overwhelming passion, our teams will always be at T.O.G.A to satisfy you!

90% short distribution channels.

Organic & Local Cereals

90% Occitanie,
10 % Central France.

French Containers

Caps from the north of France,
bottles from the south of France.

Pure Mountain Water

We use water from the Montagne Noire, that has been filtered for thousands of years, giving us its fresh and incomparable taste.

Natural Fermentation

Our fermentation does not undergo any addition of CO2 and takes its time to develop naturally.

Several fermentations and several months of storage are necessary to obtain this exceptional product, which has already won several consecutive Gold and Silver awards at the Lyon International Competition.
